

# GREETING MESSAGE OF THE ORGANIZING COMMITTEE

*Dear friends and colleagues,*

*The Greek Sports Medicine Society and the Balkan Sports Medicine Union wellcome you to the 7th Balkan Sports Medicine Congress with the hope that during the three days of scientific paper presentations, you will gain both experience and knowledge from the developments presented in the field of athletic science.*

*It is the peak scientific event of the Balkan Sports Medicine Union organized every two years and this year coincides with the celebration of twenty years of the founding of the union.*

*Thus, together with other athletic and cultural events which unite the friendly peoples of the Balkan countries, the existence of the Balkan Sports Medicine Union consolidates further friendship and scientific ties in the field of sports.*

*Especially in our country and now when all the agencies are together struggling for the organization of the Golden Olympiad of 1996 in the country where the ancient Olympic Games were born, here in Athens where in 1896 contemporary Olympic Games were reborn, it is an opportunity for us Greeks to prove both our organizational and scientific abilities.*

*The realisation of the 7th Balkan Sports Medicine Congress will contribute decisively to the further development of athletic science, when in fact its scientific programme covers the wide range of Athletics and Training, both for athletes of high standing and mature athletes. This congress will provide the opportunity for the exchange of experience and new development throught the field of the science of sport. This congress will*

*once again confirm the spirit of brotherhood and friendship of the Balkan people.*

*We hope that at the end of the congress we will all, both Greeks and Foreigners, wish to be «All together in Greece in 1996 for the Golden Olympic Games».*

*With collegial greetings,*

*Chairman of the Organizing  
Committee*

*Dr. MD Matheos Liougas  
President Hellenic Ass. of  
Sports Medicine and Balkan
